- C++
- PHP 8.x (MVC architecture, PDO, Security/SQL Injection prevention), CRUD operations
- HTML5/CSS3, JavaScript (ES6+), Chart.js for data visualization.
- GIT, GitHub

LANGUAGE

Polish. English, Danish

ABOUT ME

Analytical MSc of Biotechnology graduate, transitioning into Software Development, based in Denmark. I combine a strong engineering background with practical experience in C++ and PHP 8.x. Focused on writing clean, secure code and implementing MVC architecture, I am eager to apply my problem-solving skills and technical foundation to a Junior Developer role.

IT PROJECTS

BudgetApp – Your Personal Financial Assistant

Dynamic transaction management (CRUD)
integrated with the MySQL database

Address Book – Console Application

An application designed for organizing and persisting contact information using object-oriented principles.

Portfolio Website

Responsive personal landing page developed using HTML5, CSS, and Bootstrap, featuring a custom – personalized layout optimized for all device sizes

Memory Game – Simon

Development of an algorithm that generates random sequences and verifies user responses in real time, using event listeners

SOFT SKILLS

Analytical Thinking
Willingness to Learn
Clear Communication
Problem-Solving
